Summary

ServiceNow Developer with hands-on experience in ITSM and CMDB modules. Skilled in catalog development, workflow automation, UI policies, and data management. Experienced in incident resolution, asset management, and implementing scalable solutions on the ServiceNow platform.

Education

Kalasalingam Academy of Research and Education	B.Tech
CSE	Tamil nadu • 2020-2024
Govt. Higher secondary School, Jakh	HSC(10+2)
PCM	Jammu • 2017-2019

Experience

Tata Consultancy Services	Gurugram
ServiceNow Developer	2024-Present
- Built and customized scalable ITSM solutions using catalog items, UI policies, and scripting - Automated workflows and optimized processes to improve efficiency and reduce manual effort - Resolved incidents and enhanced system performance while ensuring data accuracy and access control	

Projects

Passenger Management System
- Developed a scalable backend system for managing train reservations and passenger data - Designed relational data models for Passenger, Train, and Ticket entities - Implemented booking logic with seat allocation and ticket status tracking - Ensured data validation, exception handling, and API efficiency
Knee Osteoarthritis Detection System
- Developed an end-to-end deep learning system using ResNet50 CNN for automated detection and severity classification of knee osteoarthritis (~67% accuracy) - Built a real-time web interface using Streamlit, enabling image upload and instant prediction - Utilized TensorFlow, Keras, and OpenCV for model training, preprocessing, and scalable inference pipeline

Skills

🔗 ServiceNow
ITSM, CMDB, Catalog Items, Record producers, UI Policies, Client script, Business Rules, Flow Designer/ Workflow, ACLs
🔗 Technical
JavaScript, Java, Python
🔗 Tools
ServiceNow, Excel, Powerpoint, Word
🔗 Soft Skills
Communication, Team player, Problem Solving, Time Management, Leadership

Languages

English, Hindi, Dogri, German
